The background of the entire page is a close-up, macro photograph of a copper surface. The copper has a warm, reddish-brown hue and a textured, slightly mottled appearance. Numerous small, clear water droplets of various sizes are scattered across the surface, some reflecting light. In the lower right quadrant, the curved rim of a copper washbasin is visible, showing the same texture and color as the rest of the surface. The lighting is soft, highlighting the metallic sheen and the individual grains of the copper.

Unique washbasins and  
custom products made out of copper  
Handmade in South Tyrol

## A METAL WITH A LONG HISTORY

teviaq manufactures original washbasins out of copper in a laborious handcraft process. Copper as a metal has a long history, whose uniqueness still lives up to this day.

The steady annealing on the naked flame and the high temperatures occurring during the welding generate an individual patina. New and old techniques used in the manufacturing lead to a process, which creates every single work as one of a kind.

The timeless and plain design of each basin delivers a special style into the room. The effects enfold not only in modern bath rooms but also in combination with natural and antique furniture.

## OUR MODELS

The products differ less in their proportions but in their form. The measurements serve only as a guideline as they can be changed anytime if desired.

The delivery time is at around six weeks because of the unique and customized workmanship.

For requests regarding prices or other questions and questions please feel free to contact us.

ESPINAR

KEVISTA

KEEWEE

## OUR MODELS

# KEVITSA

This model is ideal for rustic pubs and bars because of the usage of aged beer barrels. The outside consists of the old staves made out of oak being hold together by iron bands, the inside is our classical copper work. Longer delivery times and constrained dimensions apply due to the availability of the beer barrels.

*Diameter: 32 cm Height: 16 cm*

## OUR MODELS

# ESPINAR

This modern wash basin with its hidden drain is an eye-catcher in the modern straight-line designed bathroom. Installing an rectangular-shaped faucet underlines the appearance of this basin.

*Lenght: 50 cm Width: 40 cm Height: 13 cm*

## OUR MODELS

# KEEWEE

The oval look of the Keewee appeals very wide without losing any lightness. This basin looks proportional even at large dimensions and is therefore ideal for a family bathroom.

*Length: 70 cm Width: 50 cm Height: 13 cm*

## MORE MODELS

### CHUQUI

This large basin makes a heavy impression and therefore needs its space in the bathroom.

*Diameter: 42 cm  
Height: 12 cm*

### COPPERBELT

The Copperbelt has a very noble impression as a bowl or a basin with its high and elegant form.

*Diameter: 40 cm  
Height: 21 cm*

### LUBIN

The restraint lines transmit easiness to this form, which is an eye-catcher in every bathroom.

*Diameter: 33 cm  
Height: 13 cm*

### OYU TOLGOI

The basin for slightly different guest bathroom. Ideally installed by pairs.

*Diameter: 33 cm  
Height: 33 cm*

## OUR CURSTOM PRODUCTS

If you have a project or an idea for a furniture made of or with copper, we are the perfect partner for your realization. Decades of experience in fine metal processing and a creative mind-set help us to realize even the most unusual requests. Whether a bath, rectangular kitchen sink or lighting elements, copper embellishes your home.
